

# Recognition by SAQA of Chartered Secretaries Southern Africa as a registered professional body.

6 February 2013

I am pleased to announce that Chartered Secretaries Southern Africa has recently been recognised as a professional body by the South African Qualifications Authority (SAQA). As a result, the designations, Grad.ICSA, ACIS and FCIS, have been registered on the National Qualifications Framework. This now supports the qualification that was registered in 2002 on the National Qualifications Framework, strengthening the recognition of the qualification as the premier qualification for governance professionals in Southern Africa.

As a registered professional body, CSSA engages on a regular basis with legislators and regulators representing its members on forums such as the King Committee and Fasset. As such, CSSA remains in the forefront of developments in the field of corporate governance and accounting underpinned by ethical foundations and accountability.

CSSA has been involved for more than 100 years in the training and development of governance professionals and accountants and this recognition provides evidence of our contribution to good corporate governance and accounting in Southern Africa.

Dr Blade Nzimande,  
Minister of Higher Education  
& Training, presents the  
certificate to Stephen Sadie,  
CEO of CSSA.
