

The need for a thought-leading corporate governance conference has arisen because of the increasing concern about non-compliance of financial reporting standards and accountability by boards of directors, which in turn results in heavy losses for investors.

CGISA's Premier Corporate Governance Conference covers topics around making corporate governance within an organisation transparent with the goal of achieving effective, entrepreneurial and prudent management that can deliver the long-term success of the company. The interactive session profiling high profile speakers and panellists creates interesting debates facilitated by an experienced MC.
